TCRA Plan Narrative

1. The TCRA business plan is fully defined
2. TCRA is sole owner of the TCRA patent portfolio
3. TCRA forms billionaire Rh Club to gain access to essential parties
4. Rh Club persuades top financial firms to ILBOW TCRA
5. The term sheet is negotiated.
6. TCRA shares are redistributed to the 8 action parties of the TCRA plan.
7. Big 4 commit to develop DLA and announce their intent
8. PE , Investment bank, VC underwriters raise **$30B** to acquire **10%** of now valuable TCRA
9. Underwriters manage this post announcement payday and ensure continuing TCRA liquidity
10. WIRhE gets **$10 million** endowment.
11. Big 4 develop DLA, in two years start collecting royalties for TCRA.

An Extraordinary Confluence of Factors to favor the TCRA plan

1. A worthwhile problem to tackle exists, **400 Rh babies** dying every day in the Global South.
2. A proven method exists to prevent these deaths exists.
3. WIRhE exists, a nonprofit ready in many countries with plans to prevent the **400 deaths** but lacking a **$250 million** budget.
4. TCRA exists, owns a formidable portfolio of US and international patents that will revolutionize clinical labs worldwide.
5. Wall Street and Silicon Valley exist, used to pouring enormous amounts of capital into innovations that promise large profits.
6. The **$293 billion** market size clinical lab industry exists undergoing inexorable improvements in the level of automation of lab tests now essential for patient care.
7. Automated TLA clinical lab analyzers exist that perform **66%** of the world's lab test volime; sold by the oligopoly, *Beckman, Abbott, Siemens and Roche*.
8. With TCRA patents in their next generation analyzers, the Big 4 can make clinical labs pay **>$1 trillion** of royalties to TCRA.
9. The certainty exists that when Big 4 announce this intent, TCRA company value will immediately rise to ~**$300 billion**
10. In the rest of the world's **50,000** clinical labs there is an inexorable move from costly current **50%** automated labs to inexpensive efficient **95%** automated labs over the next 20 years.
11. Hundreds of philanthropic minded billionaires exist will be invited to join the Rh Club; who can provide the access TCRA lacks to the CEOs of the Big 4.
12. The near certainty exists that Rh club members can persuade the Big 4 CEOs to make the DLA announcements and so save **140,000** Rh babies' lives annually.
13. TCRA is offering **28%** of TCRA, **$280 billion** in royalties, to the Big 4 as an inducement for them to do this.
14. TCRA's is offering **7%** of TCRA, **$70 billion** in royalties to big financial firms, as an inducement for them to find investors who will make an early investment in WIRhE's TCRA shares; and maintain continuing liquidity for TCRA shares.
15. TCRA will donate **50%** of TCRA shares, **$500 billion** in royalties, to charity

Based upon the existence of this extraordinary confluence of factors, TCRA has devised a simple but innovative business plan wih a heart that will generate immediate wealth to save the Rh babies and much more.
